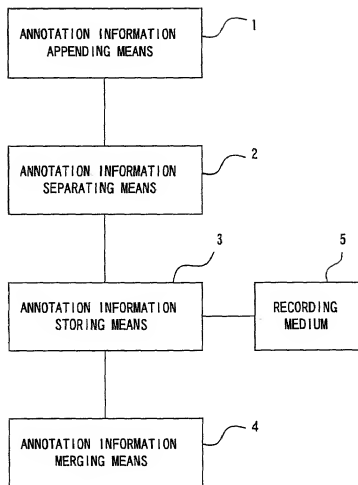

FIG. 1

The diagram illustrates a network architecture. On the left, an oval labeled 'INTRANET' (7) is connected to two desktop computers (6). On the right, an oval labeled 'INTERNET' (8) is connected to three servers (9) and two desktop computers (6). The Intranet (7) and Internet (8) are connected to each other. The servers (9) are labeled 'SERVER' and the desktop computers (6) are labeled with the number 6. Vertical ellipses at the bottom of each side indicate additional components.
